

Removalists Perth | Furniture & Interstate Removals, Perth WA

Canonical: <https://www.fragileremovals.com.au/perth/>

Details:

Plan your Perth move around the items and access at both addresses. Choose local transport for a nearby relocation, add packing or storage where required, and discuss an interstate plan if the destination is in another state. Confirm the actual date, crew, inclusions and price in writing before treating a service description as your booking.

Start with local removal services , compare interstate options from Perth , or discuss packing materials if you are preparing the cartons yourself.

Local and interstate moving services from Perth, with packing and storage options to discuss.

Local Removals in Perth You Can Count On

Moving house in Perth? Whether you're heading from Subiaco to Spearwood, Joondalup to Jandakot or anywhere across the metro area, we can assess the handling and transport you need.

We plan the people, vehicle and equipment required for your move. Your quote and booking should identify the work included and who to contact during collection and delivery.

We assess the handling and access for your move, including stairs, loading space and furniture dimensions. Share those details early so the proposed crew and equipment suit the work.

Why Choose Fragile Removals for Your Perth Move?

Careful planning and handling

A quote based on your inventory and access

Wide range of additional services available

Well-trained, uniformed removalists who are friendly, careful and easy to deal with.

Ask us for the relevant business insurance documentation and discuss cover for your goods separately.

Check the policy information for any moving insurance you choose, including exclusions, excess and claims arrangements.

Compare your Perth address with the commute, services and outdoor activities important to your household. Check the actual route and property rather than relying on a city-wide description.

We help households move across Perth and coordinate interstate journeys. Start with an inventory and both addresses so we can discuss the transport and any packing or storage needed.

Perth's Trusted Removalists – Read Our Reviews

Read customer accounts on our testimonials page alongside the proposed service plan. Look for details relevant to your property access, inventory and journey, then discuss those requirements with us.

What Our Perth Removalists Can Do for You

Our Perth team helps with local household and commercial moves. Tell us about the inventory, building and access so we can assess the crew, vehicle and equipment needed.

House Removals

We move houses, townhouses and units, from smaller households to fuller family homes. Agree the furniture protection and destination placement in the booking, and include any room-by-room packing you want us to provide.

Apartment Removals

Apartment moves need a plan for lifts, corridors, strata rules and loading bays. Give us the building requirements at both addresses and agree who arranges lift keys, loading-dock bookings and access documentation before collection.

Furniture Removals

We help with individual furniture moves as well as full households. Identify lounges, tables, wardrobes, pianos, pool tables or other difficult pieces so we can assess the equipment and route. Dismantling and reassembly need to suit the item's construction and be agreed in the quote.

Office & Commercial Relocations

Moving a business means working around your operating hours and getting your team back up and running fast. Our commercial relocations service covers offices, retail spaces and warehouses across Perth. We label and inventory everything, handle IT equipment with care, and can work after hours or over weekends to reduce disruption to your staff and customers.

White Glove Services

For valuable, fragile or oversized items, discuss our white glove service. Identify the material, dimensions, condition and required protection so we can assess packing, handling and placement. If the item needs a particular temperature or humidity range, establish a suitable arrangement for the whole journey before booking.

Packing & Unpacking

We offer packing and unpacking services. Agree the items or rooms, materials, timing and any used-carton removal in the quote. A packing appointment may need a separate visit or building access window, so organise it before collection.

Storage

Sometimes your move-out and move-in dates don't match. We offer secure container storage and mobile storage in Perth for exactly this situation. Your belongings stay wrapped and protected in our storage facilities until you're ready for delivery. Short-term or long-term, we work around your timeline.

Handyman Service

Ask about handyman extras such as furniture assembly, picture hanging, TV mounting or shelving. Agree the specific task, any building permission and the appropriate person to carry it out. Work involving fixed services or fixtures may need a qualified trade and a separate appointment.

Utility Disconnections & Reconnections

We can discuss coordination of electricity, gas, internet and water transfers. Confirm the available service, provider requirements and connection dates before relying on utilities at the new address.

Need something specific that isn't listed? Call us on 1800 500 584 and we'll let you know how we can help.

How a Local Move in Perth Works With Us

Booking your Perth removalists doesn't have to be complicated. Here's what to expect from start to finish.

Get a quote. Tell us about your move: how many rooms, the pick-up and drop-off suburbs, and any special items. We'll come back with a clear, written quote.

Confirm your date. Agree an available date and collection window. Confirm parking and building arrangements with the coordinator before the booking is finalised.

Moving day. We work to the agreed collection plan, using protection and equipment selected for the load. Keep your contact available for access questions and any changes to the schedule.

Set-up and sign-off. Direct furniture to the agreed positions and check the booked reassembly or unpacking work with the crew. Raise any outstanding item through your booking contact.

How Long Does a Local Move Take?

The time needed for a local move depends on how much furniture you're moving, access at both properties, and the travel time between addresses.

The handling time can increase if the truck cannot park close to the property, there are stairs or lifts, furniture needs dismantling or items require extra care. Describe those conditions before the estimate is prepared.

You'll also need to allow for travel time between the pickup and delivery locations.

Can I Speed Up My Move?

Ask us to assess the crew and equipment for your inventory and access. A larger crew may help with some jobs, but available working space, building windows and specialist tasks also affect the plan. Complete the agreed preparation and keep access clear before collection.

Get An Accurate Estimate

For a more accurate estimate, send us your moving details and complete our inventory tool. Include access notes for both properties, such as parking, stairs, lifts and carrying distance. This helps our team estimate the time and cost of your move more accurately.

Planning and responsibilities

Agree the inventory, handling requirements and responsibilities before collection. Keep the quote and booking terms available so you and the crew use the same instructions.

For local or interstate work, tell us about unusual items and any fixed access or delivery windows. We can then assess the preparation and resources for your booking.

Perth Suburbs We Service

We arrange moves across Perth, including Subiaco, Belmont, Fremantle, Spearwood, Lake Coogee and Lakelands. Give us the exact collection and delivery addresses to confirm the route and available dates.

Belmont

Spearwood

Lakelands

Lake Coogee

Subiaco

Fremantle

If you're moving interstate from Perth to Melbourne, Sydney, Brisbane or elsewhere, visit our interstate removalists Perth page for dedicated route information and pricing.

Removalists Perth – Pricing and Quotes

The cost of a local move in Perth depends on several factors: the size of your home, the distance between addresses, access at both properties (stairs, lifts, long driveways) and whether you need packing help.

We prepare quotes around your specific move. Check labour, travel, requested extras and the assumptions used to calculate the amount. Keep the accepted scope and any later changes in writing.

Our quote should set out the work, travel and extras for your booking. Discuss stairs, steep driveways and other access conditions before accepting it, and ask how changes to the inventory or scope would be priced.

Compare the quoted inclusions and assumptions, and ask us to record any agreed change in writing.

When to book a Perth move

For a planned move, we recommend enquiring two to four weeks ahead. Contact us earlier if your dates or access windows are fixed, and ask about availability if you need a short-notice move. A suggested lead time does not reserve a crew or establish availability for a particular day.

Build a time estimate for your Perth move

Ask for a time estimate based on your inventory, the proposed crew and the access at both properties. Separate loading, travel and unloading from packing, dismantling, reassembly and any waiting. A bedroom count alone does not establish the amount of work or a completion time.

Tell us about stairs, steep driveways, parking, lifts and carry distances before we prepare the quote. Check how labour, travel and access are priced for your booking. If those details change, ask us to review the plan and any effect on the price.

If parking, the lift booking or the inventory changes, tell the coordinator before collection. Ask for revised timing and any price effect, and keep the new instructions with the booking. For a delivery delay or a problem at handover, contact the person responsible for the move and use the process set out in the booking terms.

Compare the moving timeline for the wider preparation schedule and insurance arrangements for the checks that apply to your belongings.

What information is needed for a Perth moving quote?

Supply the collection and delivery addresses, dates and inventory, including cartons, outdoor or stored belongings and unusual pieces. Describe vehicle parking, the carry to each entrance, stairs, lifts and the route for large furniture. State packing, dismantling, storage or unpacking you want included. A Perth metropolitan move still needs both properties assessed; a suburb pair does not describe access or the workload. Ask for the price basis and inclusions in writing, and keep any unresolved address or handover detail marked as uncertain rather than guessed.

Can I combine a Perth move with packing or storage?

Yes. You can discuss full or selected-item packing and unpacking, together with storage where the dates require it. Identify what the crew prepares, what you will pack and which materials are supplied. Warehouse, mobile and self-storage arrangements have different access and loading conditions. Confirm the specific facility, term, retrieval needs and return delivery before choosing. Optional household tasks should be listed separately rather than assumed to be part of the transport service.

How long will my Perth move take?

Ask for an estimate using your inventory, the proposed crew and the access at both properties. Loading, travel and unloading need to be considered alongside packing, dismantling, reassembly and any waiting for keys or a lift. Describe parking, carry distances, stairs and fixed building windows before the schedule is agreed. A bedroom count alone does not establish a completion time. For an interstate destination, agree collection and delivery windows separately from the local handling plan. For the Perth page, keep any route-, service- or property-specific variation with the accepted written scope.

For the Perth page, what if the lift, parking or inventory changes after the quote?

Tell the coordinator exactly what has changed in the load or access, and ask whether the proposed crew, vehicle, sequence and estimate still fit. A changed parking distance or added large item can matter without changing the addresses. Keep the current inventory and revised instructions with the booking, including any price effect. If the new home cannot receive goods as planned, agree the storage or delivery alternative explicitly. Even where an access feature has no separate fee in your quote, a change to the access still needs assessment.

For the Perth page, does an insured removal service automatically cover every belonging?

No. Business insurance and moving-goods cover are separate arrangements. Check the protection for each belonging and stage of your journey. Explain the goods, packing and any storage stages to the provider of proposed cover. Ask for policy information, exclusions, excess, limits and the reporting process before relying on it. Retain the documents with the inventory and moving terms. A trained crew or secure storage facility does not independently establish cover for every loss or automatic replacement of an item.

How should I choose a Perth storage arrangement during a move?

Start with when you need the goods and whether you must retrieve individual items while they are stored. Compare the actual warehouse, mobile-unit or self-storage option available for the booking, including loading responsibilities and access procedures. Identify items that need particular storage conditions rather than assuming all units provide them. Then confirm collection, billing, the likely end date and return delivery. Keeping frequently needed documents or work items out of the main stored load may simplify the transition.
